

BPZ-20-360

The BPZ-20-360 shot blasting system is the perfect solution for large jobs that call for a ride-on machine, and it eliminates the need of a generator system or electric power. The BPZ-20-360 features an industry revolutionizing zero turn radius, is quick, and the most maneuverable machine on the market today. The BPZ-20-360 is manufactured using only state of the art components, compressors, and hydraulic drives. The BPZ-20-360 provides high production and versatility when cleaning concrete for recoating and overlay applications.

*Production Capacity:	Up to 3,800 sq. ft. /hr.
Blast Pattern:	20"
Travel Speed:	0-200 ft. /min.
Motor:	Ford 4 cylinder 2.3 liter
♦ Fuel:	Gas or Propane
Dimensions (L x W x H):	108"x67"x67" w/tank
Lights:	Front, Rear
Weight:	4,000 lbs.

Optional
Flasher or a high visibility strobe light (not shown)

Applications:

The BPZ-20-360 ride-on shot blaster is the perfect choice for large jobs including parking garages, highway and bridge work, warehouse and industrial plant floors and airport runways.

Features:

The BPZ-20-360 features dual joy stick steering, self-contained filtering dust collector, non-marking tires, hydraulic front-end lift, hydraulic shot valve and heavy duty liners.
