

BP-10-27

The BP-10-27 ride-on self-contained shot blasting system is the perfect solution for medium-to-large jobs and eliminates the need of a generator or electric power.

The rounded housing and the Hammer Head reversible dovetail blade system incorporated into the paddle wheel design are innovations which result in superior performance.

The BP-10-27 features a compact design that allows it to pass through a 36" doorway, and has an onboard pulse style dust collector.

The BP-10-27 rider is the ideal system for jobs such as airport runways, warehouse floors, parking decks, highways and bridge decks.

- *Production Capacity: up to 1,500 sq. ft /hr
- Blast Pattern: 10"
- Travel Speed: 0-200 ft. /min.
- Motor: 27 hp Kohler
- ◆ Fuel: Liquid Propane
- Dimensions (L x W x H): 78"x34"x57"
- Lights: LED Headlight
- Weight: 1,525 lbs.
- Optional: Blast reduction plates for line stripe removal jobs.
